PROFILE

Bachelor of Information Systems graduate from Telkom University with internship experience in digital transformation and procurement business process analysis, as well as academic project experience in designing, developing, and testing web applications. Skilled in requirements analysis, business process mapping with BPMN, system modelling with UML, and software testing through Black-box Testing and User Acceptance Testing (UAT). Experienced in preparing process and system requirements documentation, identifying discrepancies, and evaluating application functionality against user needs. Interested in pursuing a career in System Analysis and Quality Assurance.

EDUCATION

Telkom University 2022 – 2026

Bachelor of Information Systems | GPA: 3.68

Relevant Coursework: Programming Algorithms, Databases, Business Process Modelling, Information Systems Analysis and Design, System Testing and Implementation, Website Application Development, Information Systems Project Management, Software Project, Advanced UI Development.

CERTIFICATIONS & TRAINING

System Analyst, LSP Informatika (BNSP) November 2025 – November 2028

System Analyst Training, KSS Consulting 29 – 31 October 2025

INTERNSHIP EXPERIENCE

Transformation Office Procurement Representative Intern, PT KAI (Persero) July – August 2025

- **2 SOPs and 2 Procurement Planning Documents**: Reviewed the E-Catalog and E-Purchasing SOPs and mapped business processes by developing flowcharts.
- **2 Procurement Documents**: Analysed Terms of Reference (TOR), Budget Plans (RAB), and technical and financial evaluation forms.
- **11+ Consultant Proposals**: Evaluated consultant profiles and qualifications, verified company and expert experience, and checked the completeness of project administration documents.
- **3 Documentation Materials**: Supported updates to the procurement digital transformation documentation by preparing presentation materials, reviewing regulation dissemination outcomes, and adjusting documents to reflect business process developments.
- **15+ Meetings and Discussions**: Participated in coordination meetings and bidding sessions with consultants to support procurement requirement discussions and stakeholder coordination.

PROJECTS

MK Lesmana Museum Website, Final Project (Semester 8) 2026

- **15 Features**: Developed Museum ticket booking and management features, Midtrans-integrated payment, QR Code-based ticket verification, and a manager dashboard using Laravel.
- **6 Business Processes**: Analyzed existing business processes and modelled target business processes as BPMN diagrams to support the digitalization of ticket booking and museum operations.
- **35 Use Case Descriptions, 32 Activity Diagrams, and 32 Sequence Diagrams**: Prepared requirements and system modeling documentation as a reference for application development and designed the user interface in Figma.
- **36 Product Backlog Items (PBIs) and 1 Entity Relationship Diagram (ERD)**: Prepared the development backlog and designed the database structure.
- **91 Black-box Testing Scenarios and 31 UAT Respondents**: Conducted functional and user acceptance testing with a 100% test success rate and acceptance scores of 4.68/5 from visitor users and 4.83/5 from manager users.
- **SUS Score**: 81.08 for visitor users and 80 for manager users, both rated Acceptable, Grade A.

School Savings and Loan Cooperative Website, Capstone Project (Semester 7) 2025

- **12 Features**: Developed a loan management module covering loan applications via a WhatsApp bot, application approval by the treasurer, instalment payment recording, and billing management, notifications, and financial reports using Laravel.
- **2 Business Processes**: Analysed existing business processes and designed target business processes as BPMN diagrams to support the digitalization of cooperative administration.
- **12 Use Case Descriptions and 12 Activity Diagrams**: Documented functional requirements and system activity flows based on the needs of cooperative administrators and members.
- **1 Use Case Diagram and 1 ERD**: Modelled user–system interactions and designed the database structure for cooperative data management.
- **User Acceptance Testing (UAT)**: Validated system functions with cooperative administrators to ensure the features met operational needs.

OrangBaik Website, Major Assignment Project (Semester 6) 2025

- **2 Features and 7 Product Backlog Items (PBIs)**: Developed the Disaster Mitigation Education and Testimonials & Victim Stories features by implementing 4 education PBIs and 3 testimonial PBIs.
- **4 Disaster Mitigation Education PBIs**: Implemented admin-managed educational content (create, update, and delete) and user access to educational information by evacuation, health, and psychosocial categories.
- **3 Testimonials & Victim Stories PBIs**: Developed the flow for aid recipients to submit their experiences, admin moderation of testimonials, and publication of verified stories for user access.
- **15 Test Cases**: Performed automated testing using Laravel Dusk.

ACADEMIC EXPERIENCE

Study Group Member, ERP Laboratory, Telkom University Semester 6, 2025

- **4 Odoo Modules**: Studied and practiced company business processes using Odoo, covering the Inventory, Purchasing, Manufacturing, and Sales modules.

Study Group Member, EIM Laboratory, Telkom University Semester 4, 2024

- Studied the concepts and implementation of Cloud Computing and its use in supporting business applications.

ORGANIZATIONAL EXPERIENCE

Member, Internal Affairs and Liaison Commission, BPM SI, Telkom University 2024 – 2025

- **6+ Activity Publications**: Prepared and disseminated information on plenary sessions, internal agendas, and collaborations with external parties.
- Prepared PowerPoint presentation materials to document discussions and communicate information during plenary sessions.
- Coordinated schedules, locations, and venue bookings to ensure smooth execution of plenary sessions.
- Collaborated with internal members and external parties in coordinating organizational activities.

General Secretary, OSIS SMA Negeri 1 Majalaya 2021

- Supported the administration and documentation of 10+ work programs during one term by preparing activity proposals and reports.
- Prepared meeting minutes and documented discussion outcomes as organizational references and archives.

COMMITTEE EXPERIENCE

Logistics Division Member, PKKMB 2024 Committee, Telkom University 2024

- **11 Logistics Requirements**: Served as the PIC coordinating the logistics needs of the PDD Division, including coordinating with several vendors for camera rental and other documentation equipment.
- Managed the distribution of supplies and meals for committee members and participants.

Secretary I, HMSI General Election Committee (PPUH), Telkom University 2023 – 2024

- **12+ meeting minutes, 1 proposal, 3 letters, and 1 accountability report (LPJ)**: Prepared and managed administrative documentation for approximately 3 months, from the preparation stage through the election of the student association chair.
- Documented meeting and discussion outcomes as archives and references for committee coordination.

Event Division Member, Guest Lecture Committee on IT Governance Management, Telkom University 2023

- Prepared the event rundown and served as timekeeper during the event to keep proceedings on schedule.

TECHNICAL SKILLS

System Analysis: Business Process Analysis, Requirements Analysis, BPMN, UML (Use Case, Activity, Sequence Diagrams), Use Case Descriptions, Product Backlog Items (PBIs), ERD, Database Modelling.

Software Testing: Test Case and Test Scenario Development, Black-box Testing, User Acceptance Testing (UAT), Automated Functional Testing (Laravel Dusk), System Usability Scale (SUS).

Web Development: Laravel, PHP, HTML, CSS, Python

Database: MySQL

Tools: GitHub, Figma, Visual Studio Code, Visual Paradigm, Microsoft Office, Bizagi.
